**WARNING TO THE RESIDENTS OF  
OGDEN—READ THE LAW AND  
PREVENT AN EPIDEMIC.**  
It shall be unlawful for any physi-  
cian or other person caring for the  
sick in Ogden City, and every person

having knowledge of the existence in  
Ogden City of any of the diseases  
hereinafter mentioned, or any other  
infectious or contagious disease, to  
fail to make a report of the existence  
of such disease to the Board of  
Health within five hours after such  
physician or other person becomes  
aware of the existence of any case of  
scarlet fever, smallpox, diphtheria,  
bubonic plague, epidemic cerebro-spi-  
nal meningitis, whooping cough, ty-  
phoid fever, measles, chickenpox or  
any other eruptive disease in his or  
her charge, or within his or her  
knowledge.

Violation of this law is a misde-  
meanor and will be treated accord-  
ingly.

## CONSTRUCTION DELAYED BY WEATHER

Due to the frozen condition of the  
ground in Ogden canyon, construction  
work on the Huntsville extension of  
the Rapid Transit Interurban line has  
been temporarily suspended.

Engineer Joseph West stated this  
morning that the work would neces-  
sarily have to be done at great dis-  
advantage at this time and that it  
was necessary to cease operations  
until weather conditions improve.

Much of the covert work and grad-  
ing at points where high water will  
reach the roadbed has been done, but  
there is yet considerable distance  
along the river where high water will  
materially interfere. However, the  
work will be prosecuted as rapidly as  
possible with the hope that the road  
can be completed and cars operated  
over it early this season.

Contractor Henry West has not yet  
returned from California, but he is  
expected home in the course of a few  
days, at which time he will resume  
operations.

## PROCEEDINGS OF LAW MAKERS

In the Senate.

The senate committee on educa-  
tion met last night and decided to  
recommend for passage the senate bill  
by Eckerley permitting cities of the  
second class with an assessed valua-  
tion of less than \$100,000 to in-  
crease the tax levy for school pur-  
poses from 6 1/2 to 8 mills.

Senator George J. Kelly yesterday  
introduced three bills supplement to  
his bills now pending before the leg-  
islature providing for interest on pub-  
lic funds. The bills were all sent  
to the committee on banks and bank-  
ing.

The park board bill introduced in  
the house on Monday was introduced  
in the senate yesterday by Senator  
Charles Cottrell, Jr. of Salt Lake. The  
bill abolishes the park board and  
places the control of parks and play-  
grounds entirely in the hands of the  
city commission or city council.

Senator G. A. Iverson of Carbon  
yesterday introduced a bill changing  
the method of incorporating towns. At  
present the towns are incorporated by  
order of the county commissioners. If  
Senator Iverson's bill becomes a law  
the order incorporating the towns will  
be issued by the district court.

In order to permit Coallville in Sum-  
mit county to sell a municipal power  
plant which has proven a burden to  
the city, Senator L. B. Wright yester-  
day introduced a bill permitting cities  
or towns to sell or lease municipal  
power and light plants. The present  
law gives cities and towns power to  
acquire and own such plants but does  
not give them the power to dispose of  
them.

Senator Charles Cottrell, Jr. of  
Salt Lake yesterday introduced a bill  
in the senate placing surety com-  
panies under the supervision of the  
state insurance commissioner instead  
of the secretary of state. The bill was  
referred to Senator Cottrell's com-  
mittee.

The exceptions in the law providing  
that no city officials shall receive  
free transportation on street railways  
are increased by the addition of  
health inspectors in uniform and po-  
lice in plain clothes by a bill in-  
troduced in the senate yesterday by  
Senator Charles Cottrell, Jr. of Salt Lake.  
The present law gives policemen and  
firemen uniform the privilege of  
accepting free transportation.

Senator A. L. Booth of Utah com-  
mittee yesterday proposed a measure  
making it the duty of the judge of a  
court where insanity is alleged as a  
defense in criminal actions to exam-  
ine into the sanity of the defendant.  
The commission is to consist of three  
physicians who are qualified as alien-  
ists.

By the terms of a bill introduced  
in the senate yesterday by James W.  
Funk of Cache, it is necessary for an  
inventor who offers for sale con-  
vict-made goods to take out a li-  
cense for this purpose and to make  
public announcement of the fact that  
the goods he offers for sale are con-  
vict-made. This bill if it becomes a  
law, it is believed will minimize the  
danger to manufacturers from com-  
petition with low-priced convict-made  
goods. The bill was referred to the  
committee on public health and labor,  
of which Senator Funk is chairman.

The senate committee on judiciary  
yesterday proposed a measure  
eliminating the necessity for the bill  
of Senator Benner N. Smith providing  
for compulsory voting. The bill pro-  
vides that all citizens who fail to  
exercise their right of franchise are  
subject to poll tax, while all who vote  
are exempt from the tax. Several  
amendments were made by the com-  
mittee, but none of these changes the  
intent of the bill.

A division of the senate committee  
on judiciary was reported with refer-  
ence to the consideration of an  
amendment to the statute of frauds  
eliminating the necessity of agree-  
ments between real estate dealers and  
clients being in writing. A majority  
favored the passage of the bill while  
a minority opposed it. The minority  
consented, however, that the bill go  
on the calendar for final passage.

Senator Eckerley's bill extending  
the powers of the state text book  
commission to the selection of text  
books for high schools, except in cities  
of the first and second classes, was

bottle of "Ely's Cream Balm" at any  
drug store. This sweet, fragrant

passed by the senate yesterday with  
but one dissenting vote Senator L. B.  
Wright of Summit county voting in  
the negative. Senator Wright endeav-  
ored to secure an amendment to the  
bill which would either make the au-  
thority of the state text book com-  
mission absolute over the entire state,  
including cities of the first and sec-  
ond classes, or limit it to school dis-  
tricts outside of school districts of  
any class.

William H. Jenne, formerly a mem-  
ber of the Nauvoo Legion during the  
Black Hawk war, has applied to the  
legislature for \$2000 because of the  
loss of a leg during the Indian cam-  
paign. Senator William Craig yester-  
day introduced a bill in the senate  
asking that the appropriation asked  
for be granted. On July 19, 1867, the  
bill was forth, Mr. Jenne, while driv-  
ing cattle to the Wasatch tribe of  
Indians with whom peace negotia-  
tions were being made, suffered a  
broken leg, which was afterwards am-  
putated. The bill went to the com-  
mittee on appropriations and claims.

In a bill introduced in the house  
yesterday by Cardon of Cache, courts  
are given power to exclude specta-  
tors from the court room during the  
hearing of certain cases commonly  
called as "racy."

A bill for a racing commission was  
introduced in the house yesterday by  
Cook of Salt Lake county. The bill  
provides that the governor shall ap-  
point a commission of five, at least  
three of whom are to be breeders and  
raisers of thoroughbred stock. The  
commissioners are to hold office for  
four years. They are allowed a sec-  
retary, who is to be paid \$1200 a year,  
which amount is to be collected from  
corporations or associations proposing  
to conduct races. The commission  
is given power to prescribe rules, reg-  
ulations and conditions under which  
running races may be held and may  
grant licenses to conduct races. Li-  
censes are to be revocable if the races  
are not conducted in accordance  
with the rules of the commission. No  
running races are to be permitted ex-  
cept they are sanctioned by the com-  
mission. Bookmaking and pool sell-  
ing are expressly forbidden.

Mrs. Cannon of Salt Lake yesterday  
introduced a bill in the house provid-  
ing that the husband and wife living  
together are joint guardians of their  
minor children, with equal powers,  
rights and duties in respect to the  
control and custody and of the ser-  
vices and earnings of the children.  
Neither husband nor wife has any  
paramount right in respect of custody  
or otherwise.

A bill was introduced in the house  
yesterday by Monson of Sanpete ap-  
propriating \$10,000 for the relief of  
families of officers killed in the per-  
formance of their duty. Two thou-  
sand dollars is to be given each family  
that has lost its breadwinner through  
death in the service of the state as  
a peace officer.

Day of Iron yesterday introduced  
in the house a bill making the branch  
normal school at Cedar City a branch  
of the Agricultural college. The man-  
agement and control of the school  
are placed in hands of the board of  
trustees of the Agricultural college.  
It is provided that 7.25 per cent of  
the annual revenue derived from the  
general tax for state purposes shall  
be set aside for the benefit of the  
Cedar City institution under the new  
arrangement. The idea of the change  
is that the school should be devoted  
more largely to the teaching of  
subjects relating to agriculture.

In a bill introduced by Mabey of Da-  
vis in the house yesterday the pres-  
ent law requiring railroads to fence  
their rights of way is extended to  
apply to roads operated by electric  
or gasoline or any other mechanical  
 motive power as well as steam.

A bill introduced in the house yester-  
day by Mabey of Davis changes the  
terms of punishment for desertion  
or willful non-support to a fine of  
any amount less than \$200 or by im-  
prisonment in the county jail for 55  
months or both fine and imprison-  
ment.

Cardon of Cache yesterday intro-  
duced a bill in the house fixing the  
hours of closing saloons in any city  
of whatever class at 9 o'clock, and  
prohibits drug stores from selling li-  
quor after 10:30 p. m. The present  
law permits saloons in cities of the  
first and second classes to keep open  
until 12 o'clock and drug stores to  
sell liquor up to that hour. Ogden  
now has a 9 o'clock closing regula-  
tion fixed by ordinance. In the mat-  
ter of saloons, therefore, Salt Lake is  
the only city which would be affect-  
ed should the Cardon bill become a  
law.

A bill presented by Bennion of Uta-  
h in the house yesterday makes it  
unlawful for any person to shear  
sheep or goats belonging to another  
except he be employed for that pur-  
pose by the owner. The driving away  
of another's sheep for a greater dis-  
tance than 15 miles from a shearing  
or dipping corral, whether with in-  
tentional intent or not, is also made  
unlawful. Another bill by Bennion  
makes the recorded brands of live-  
stock with the state auditor prima  
facie evidence in all suits whether  
civil or criminal, of the ownership of  
the stock by the person whose record-  
ed brand the animals bear.

Yesterday was the last day under  
the rules when members could intro-  
duce bills in their own name. Under

**GRAY HAIR MAKES YOU LOOK  
OLD--USE A LITTLE SAGE TEA**  
Says Sage and Sulphur  
Darkens Hair Beauti-  
fully and Ends  
Dandruff  
Hair that loses its color and lustre,  
or when it fades, turns gray, dull and  
lifeless is caused by a lack of sulphur  
in the hair, says a well-known local  
pharmacist. Our grandmother made  
up a mixture of Sage Tea and Sulphur  
to keep her locks dark and beauti-  
ful and even today this simple  
preparation has no equal. Millions  
of women and men too, who value  
that even color that beautiful dark  
shade of hair which is so attractive  
use only Sage Tea and Sulphur.  
Nowadays we are not bothered with  
the task of gathering the sage leaves  
and the mussy mixing at home. Sim-  
ply ask at any drug store for a 50  
cent bottle of the ready to use pre-  
paration, called "Wyeth's Sage and  
Sulphur Hair Remedy." Customers  
like this best because it darkens so  
naturally; so evenly, that nobody can  
possibly tell it has been applied. Be-  
sides, it contains ingredients which  
take off dandruff, stop scalp itching  
and falling hair. No, it isn't a dye or  
even like it. You just dampen a  
sponge or soft brush with "Wyeth's  
Sage and Sulphur" and draw it  
through your hair, taking one small  
strand at a time. By morning the  
gray hair disappears; after another  
application or two it is restored to its  
natural color.  
What delights the ladies with  
Wyeth's Sage and Sulphur is that  
besides beautifully darkening the hair  
they say it brings back the gloss and  
lustre and gives it an appearance of  
abundance. A. R. McIntyre, Agent,
